For additional recognized assessment organizations visit the International Laboratory Accreditation Cooperation website @ www.ilac.org and the National Cooperation for Laboratory Accreditation website at <http://www.nacla.net/>.

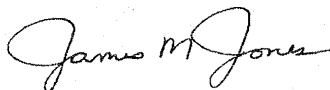

Note: Some of these organizations are signers of Mutual Recognition Arrangements (MRA's) which precludes them from accepting other's assessments. The MRA signatories do have procedures that allow acceptance of assessments conducted by other organizations. GM encourages the utilization of these procedures. Specific concerns should be directed to the appropriate MRA.

Independent Lab test data that is being submitted to GM for PPAP or Material Approval must meet the requirements of the following statement.

- Testing is to be performed by a laboratory that conforms* to ISO/IEC 17025 and is acceptable to the customer (GM). Test reports must conform to Section 5.10.2&3 of ISO/IEC 17025.

* Meets requirements may not be formally recognized.
