

PJLA Update Notification

Update Notification: # 100

Update Notification Release Date: 08/01/26

Form/Procedure/Policy: Revision to the LF-81a PJLA Proficiency Testing Alternative Approval Request Form

Attention PJLA Clients & Assessors:

Revision 1.1 of the LF-81a PJLA Proficiency Testing Alternative Approval Request Form is being adopted. This form is available for download on the PJLA website (<https://www.pjlabs.com/resources/pjla-documents>).

This latest version (Revision 1.1) does not introduce any additional requirements or request new information; however, it does include the following improvements:

- Clearer instructions for completing the form
- A clearer list of required documents to be submitted with the form

If you have already made a submission using the previous version of the form, it will be accepted and processed normally. **Please be aware that beginning 08/01/26, all future submissions must use the most current version available on the website (Rev. 1.1).**

We believe these updates help promote ease of form use and provide clearer expectations for completion and submission of associated required documents.

Thank you for your attention to this matter.
