

PJLA Update Notification

Update Notification # 3

Update Notification Release Date: November 17, 2008

Form/Procedure/Policy: PL-4 Calibration Scopes of Accreditation

Attention all PJLA Accredited or Applicant Laboratories:

PJLA has developed a new policy (PL-4) Calibration Scopes of Accreditation. This policy outlines set guidelines for PJLA to determine the most accurate expression of range and best measurement capability on calibration scopes of accreditation.

Additionally, this document includes an Appendix A outlining examples of appropriate expressions within certain calibration sectors. PJLA has already made several changes to accredited calibration laboratory's certificates based on this policy. This policy can be located on PJLA's website at www.pjlabs.com under the PJLA document section.

PJLA will ensure that all calibration certificates will meet this policy prior to certificate release. However, all applicant and accredited laboratories shall adhere to this policy, failure to comply can result in PJLA removing items from your scope of accreditation.

If you are in need of clarification on any of these changes please contact the PJLA Headquarters office.
